CUNYfirst Query List – Department of Computer Science at Queens College

Last Updated 10/6/2016 11:46:00 AM

Remarks:
1. These queries have been developed by CS technical staff (primarily Xiuyi Huang) to meet QC's urgent academic needs and to compensate for the inadequacies of the existing queries in the system.
2. This document is meant to be a succinct reference, not a tutorial. The queries are organized under subheadings that highlight their primary function: **Attendance and Grading**, **Classroom**, **Class Schedule and Status**, **Class Enrollment**, **Course Information and Teaching Assignment**, **Personnel and Workload**, and **Student Information**. The best way to learn them is to run a few that seem useful to you.
3. Almost every query requires user input of QNS01 for **Institution** and such values as CSCI-QC for **Acad Org**, 10066 for **DeptID**, and CSCI for **Subject** because the system's query mechanism does not provide for the automatic extraction of default settings from the user running the query.
4. The accuracy and completeness of the results can be no better than that of the data stored in the system.
5. All these queries should be viewed as work in progress (first named with prefix QCCV and later renamed to use prefix CU) and this document will be updated accordingly at www.cs.qc.cuny.edu/CUNYfirst/. Therefore in order to prevent the propagation of misinformation, please do not cut and paste or copyedit this document.
6. Comments and suggestions are welcome.

Attendance and Grading

CU_SR_MISSING_FACULTY_CTR - Faculty w/out Faculty Center

Enter Institution: [　　] 🔍
Enter Term: [　　] 🔍

[View Results]

Institution	ID	Name	Acad Org

Lists all QC faculty who don't have access to Faculty Center in a given term, sorted first by department and then by faculty name. This is a clear improvement over CU_SR_MISSING_FAC_CENTER, which lists only faculty IDs.

	Term	Session	Subject	Catalog	Section	Class Nbr	Career	ID	Name	Descr	Progress	Grade	Grade In	Instructor

Shows the grade roster of a class in a given term either by its class number or by its subject (e.g., CSCI) and catalog/course number (e.g., 313). Classes that are multiple sections of a particular course will show up one after another. If only a subject is given, then the query returns all grade rosters for the specified subject area, one roster after another. Note that if a class has more than one primary instructor, then the class will show up more than once, with each primary instructor listed separately. This is a clear improvement over CU_SR_CLASS_ROSTER and CU_SR_CLASS_ROSTERS_SUBJ because each of them is limited in the input it can handle, and they both have incorrect data in the **Grade In** column (i.e., the grades that were originally submitted by the instructor).

	Term	Session	Subject	Catalog	Section	Class Nbr	Related #1	Related #2	Career	ID	Name	Action	Closed Class	Requisites	Permission	DateTime	Enrolled By

Lists all successful registrations of students into a given class, showing date and time of each enrollment, name of person who did the enrollment, and the overrides that were used. Consequently, a student who enrolled, dropped, and re-enrolled into a class will show up twice. This query is particularly useful in identifying the person who did each enrollment after the end of the semester since CU_SR_CLASS_ROSTER_WHO changes the value of the "Registered By" field to the person who posts/changes grade.

CU_SR_CLASS_WAITLIST_DEPT - Waitlisted Students By Dept

Lists the registration history of a student (specified by ID) in a given term, showing the date and time of each enrollment action (enroll, drop, or swap), status of the action, overrides that were used, and the person who performed the action. This makes it easy to verify any claim that an early enrollment into a class did occur but was later dropped.

Lists the pre- and co-requisites of a specific course (e.g., CSCI 313) or all courses in a subject area (e.g., CSCI, BUS, ECON) or all courses in a department (e.g., CSCI-QC, ECON-QC). Note that students see the description of pre/co-requisites when they try to enroll, but the system applies the internally stored logical expressions shown in the columns between Logical Connector and RP. The five Allow columns show if a pre- or co-requisite can be met by other means (e.g., a course in progress).

CU_SR_EMPLOYEE_ROSTER - Current Employee Roster

Institution: [____] 🔍
DeptID [Blank for All]: [____] 🔍

[View Results]

Department	Name	ID	Contract Title	Job Code	Position#	CSR

Produces a list of current employees in a unit of the college or the entire college. A person holding two titles will show up twice (e.g., Lecturer Doc Sch and Lecturer H). CSR = Coded Salary Rate.

CU_SR_EMPLOYEE_CONTACT - Current Employee Contact

Institution: [ ] 🔍
DeptID [Blank for All]: [ ] 🔍

[View Results]

Department	Name	ID	Title	Full/Part	Empl Status	Email	Pref Email

Produces a list of current employees in a unit of the college or the entire college, showing their current employment status (e.g., Full/Part-time, Active, Leave of Absence) and email addresses. Note that each person holding more than one title (e.g., Lecturer Doc Sch and Lecturer H) will be listed on multiple rows (one for each title), and each title row will appear once for each email address on record for that person, so a person holding two titles and with three distinct email addresses will take six rows.

This means that chairs need to use TOCLAS/CTP or TOTHR/OCT for inserting teaching activities that do not appear on QC's Schedule page or have been under-reported by other campuses.

Lists a student's course history, beginning with the most recent semester. The query gathers information across multiple tabs at the student's Student Center page into one single table. The topic of a variable topics course will show up in the Description column only if the topic is defined in the corresponding Course Topic table. For a class that has both a lecture and a lab, an additional row will show the name of the lab instructor. The value in the Incl GPA column indicates whether the course grade is included in GPA calculation. Although transfer credits are listed in the course history, with each source institution shown in the Instructor/Trns Src column (may include course number and grade if available), clicking on the student's ID will bring up the student's Transfer Credit Report page where transfer credits are grouped by institution.

ID	Sex	Name	Decl Date	Acad Plan	Plan Req Term	Sub-Plan	SubPlan Req Term	Acad Level	Total Units	Transfer	Units in Term	GPA	Email	Address 1	Address 2	City	State	Postal	Exp Grad	ChkoutStat

Lists all students in a given term who have a specific academic plan (e.g., CSCI-MIN, CSCI-BA, CSCI-BS, CSCI-BAMA, CSCI-MA), showing the total number of earned credits/units up to the given term and the number of enrolled units in the given term, along with degree checkout status (e.g., Applied for Graduation, Eligible to Apply, Program in Review). If the given term is still in progress, the latter number is not included in the total. If the given term is over, then the total includes the number of units earned in the given term. This query is an improvement over CU_SR_SELECT_MAJORS, which does not provide credit/unit information and filters out those who don't have an email address.
